Acute disseminated encephalomyelitis after SARS-CoV-2 infection

Neurol Neuroimmunol Neuroinflamm 2021;8:e949. doi:10.1212/NXI.0000000000000949

In the Clinical/Scientific Note "Acute disseminated encephalomyelitis after SARS-CoV-2 infection" by Novi et al.,¹ there is an error in the opening paragraph. The first sentence should read, “Acute disseminated encephalomyelitis (ADEM) is a rare autoimmune disease of the CNS, that often develops after viral infections and mainly affecting children.” The publisher regrets the error.
