

Tumefactive Inflammatory Lesions in Juvenile Metachromatic Leukodystrophy

Neurol Neuroimmunol Neuroinflamm 2021;8:e969. doi:10.1212/NXI.0000000000000969

In the Clinical Scientific Note “Tumefactive inflammatory lesions in juvenile metachromatic leukodystrophy” by Meier et al.,¹ a few of the references to the figure within the Results section were incorrect; they should read as follows:

1. The reference in line 6 should read (figure, C).
2. The reference in line 11 should read (figure, E and F).
3. The reference in line 12 should read (figure, I and J).
4. The reference in line 17 should read (figure, P).

The authors regret these errors. Further, the sentence appearing in lines 7 and 8 of the Discussion section should read “The second patient presented at age 5 years with acute left-sided hemiparesis.” The publisher regrets this error.
